

Brainstorm & Idea Prioritization Template

DATE	22JUN 2025
TEAM ID	LTVIP2025TMID30950
PROJECT NAME	DOCSPOT SEAMLESS APPOINTMENT BOOKING FOR HEALTH
MARKS	

1. Team Gathering and Problem Statement

Team Members:

- Lakshmi sravya Savaram
- Pathela Praveen Chakravarthi

Problem Statement:

How can we create a seamless appointment booking system for healthcare that enhances user experience and reduces no-shows?

2. Brainstorming Ideas

Idea Listing:

- User-Friendly Interface: Design a simple and intuitive UI for easy navigation.
- Automated Reminders: Implement SMS/email reminders for upcoming appointments.
- Real-Time Availability: Show real-time availability of doctors to avoid double bookings.
- Telehealth Options: Include options for virtual consultations.
- Patient Feedback System: Allow patients to provide feedback after appointments.
- Multi-Language Support: Offer the application in multiple languages to cater to diverse users.

- Integration with Health Records: Allow users to integrate their health records for better appointment management.
- Mobile App Development: Create a mobile app for on-the-go booking and management.

Grouping Ideas:

User Experience Enhancements:

- User-Friendly Interface
- Automated Reminders
- Multi-Language Support

Functional Features:

- Real-Time Availability
- Telehealth Options
- Integration with Health Records

Feedback and Improvement:

- Patient Feedback System
- Mobile App Development

3. Idea Prioritization

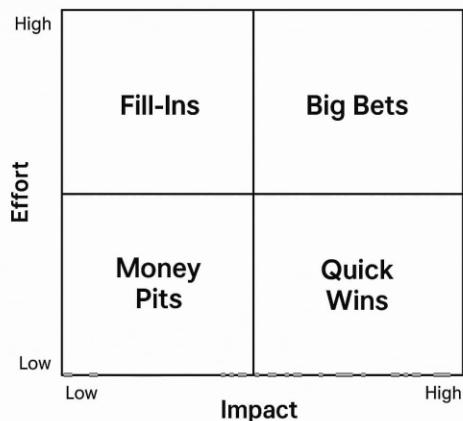

Criteria for Prioritization:

- Impact on User Experience
- Feasibility of Implementation
- Cost of Development
- Time to Market

Prioritization Matrix:

Idea	Impact (1-5)	Feasibility (1-5)	Cost (1-5)	Time (1-5)	Total Score
User-Friendly Interface	5	4	3	2	14
Automated Reminders	4	5	2	3	14
Real-Time Availability	5	3	4	3	15
Telehealth Options	4	4	3	4	15
Patient Feedback System	3	4	2	3	12
Multi-Language Support	3	3	3	2	11
Integration with Health Records	5	2	4	4	15
Mobile App Development	4	3	5	4	16

Idea Prioritization Matrix

4. Next Steps

Select Top Ideas for Development:

- 1. Mobile App Development (16)
- 2. Real-Time Availability (15)
- 3. Telehealth Options (15)
- 4. Integration with Health Records (15)
- 5. User-Friendly Interface (14)

Action Plan:

Task	Assigned To	Deadline
Research mobile app tech stack	Lakshmi Sravya	22Jun2025
Build real-time scheduling logic	Lakshmi Sravya	23Jun2025
Design telehealth interface	Lakshmi Sravya	24Jun2025
Integrate health record access	Pathela Praveen Chakravarthi	[22Jun2025
Create UI wireframes	Pathela Praveen Chakravarthi	26Jun2025

NEXT STEPS PLANNING

- 1 Continue Development**
- 2 Book Features Implementation**
- 3 Prepare Documentation**
- 4 Submission-Ready Version**
